

LASHMAN SINGH

Full Stack Developer | Software developer | Technical Support

• Winnipeg, MB • [Email](#) • [LinkedIn](#) • [Portfolio](#) • [GitHub](#)

SUMMARY

Results-driven Full Stack Developer with experience in developing dynamic websites and applications. Proficient in creating responsive web projects using HTML, CSS, JavaScript, and frameworks like React for front-end development, and Python and PHP for back-end services. Skilled in building C# GUI applications with .NET and MVC frameworks. Experienced in mobile app development using Kotlin and Jetpack, with strong knowledge of web security best practices. Proficient in Git and GitHub for version control and collaboration on complex projects. Strong problem-solving abilities, technical support expertise, and a proven record of accomplishment of delivering high-quality results through effective communication and teamwork. Knowledgeable in UI/UX design tools like Figma, and continuously expanding expertise in modern technologies such as AWS.

EXPERIENCE

Full Stack Developer (Intern)

Red River College Polytechnic

04/2024 - 08/2024 Winnipeg, Manitoba

- Led the development of the "Radiology Artificial Intelligence" project, managing both front-end and back-end functionalities, resulting in a 100% on-time project delivery.
- Developed and maintained a scalable system using React.js, Python Django, and PostgreSQL, improving performance by 25% through efficient coding practices and optimization.
- Played a critical role in implementing over 10 new features, ensuring seamless integration between front-end and back-end services, collaborating closely with a cross-functional team of 3 developers in team RAIN.
- Authored detailed documentation, including user manuals, technical guides, and test cases, facilitating easier project handovers and maintenance.
- Gained comprehensive experience in full-stack development and project management, successfully completing the project within the internship timeline, and contributing to the overall project success.

Crew Trainer

McDonald's

03/2023 - Present Winnipeg, Manitoba

- Promoted from Crew Member to Crew Trainer for consistently delivering exceptional customer service to 150+ customers daily, maintaining a 95% satisfaction rating.
- Developed onboarding programs for 3 new hires, improving efficiency by 15%.
- Reduced food waste by 10% through proactive inventory management and food safety protocols.
- Recognized as Employee of the Month for leadership, punctuality, and teamwork.
- Improved service speed by 20% during peak hours through workflow optimization.

EDUCATION

Business Information Technology (BIT)

GPA: 4.2/4.5

Red River College Polytechnic

01/2023 - 12/2024 Winnipeg, Manitoba

Senior Secondary Education

XII: 90.8%

Guru Gobind Singh Public Sen. Sec. School

04/2020 - 04/2021 Punjab, India

PROJECTS PORTFOLIO

Airbnb Clone (MERN Stack)

- Currently developing an Airbnb clone using React.js, Express.js, Node.js, and MongoDB to strengthen my skills in full-stack development.
- Focusing on building a responsive and user-friendly interface with React.js, ensuring smooth user interaction and seamless navigation.
- Developing RESTful APIs with Express.js and Node.js for handling property data, user sessions, and bookings.
- Utilizing MongoDB to efficiently manage and store data, with a focus on scalability and performance optimization.

McDonald's Clone (HTML/CSS/JavaScript)

- Developed a website focused on McDonald's food, utilizing HTML, CSS, and JavaScript for a class project.
- Designed various sections including a project home page, app download section, contact page, and detailed food information.
- Ensured the website was visually appealing, responsive, and user-friendly, providing a seamless experience across different devices.

Spotify Clone (HTML/CSS)

- Designed and developed a Spotify clone using HTML and CSS, focusing on creating a visually appealing and responsive user interface.
- Ensured proper structuring of the clone for easy navigation and intuitive user experience.
- Implemented responsive design principles to ensure optimal performance across various devices.

SKILLS

Frontend: React.js, CSS, JavaScript, Bootstrap, Tailwind

Backend: Node.js, Express.js, PHP, Django, .NET Framework, ASP.NET, MVC Framework

Databases: MongoDB, SQL

Languages: Python, Java (DSA), C#, JavaScript

Other: RESTful API
